

GUIDE TO PROPER CART PLACEMENT

A simple guide to help keep our drivers safe and your costs low!

In order to provide our customers with the best service, we ask that residents observe a few simple guidelines when placing your waste cart out for service. By doing so, you will help to keep our drivers safe, and ensure a smooth and efficient trash pickup each and every time.

- ✓ Please have your cart placed by the pickup point prior to your scheduled collection time.
- ✓ Please place your mobile cart with the lid opening towards the road.
- ✓ Please do not place your cart in the roadway.
- ✓ If you have a sidewalk, please be courteous to your neighbors and do not block walkways with your cart.
- ✓ Please place carts at least 1' APART from other containers, and 3' APART from mailboxes, fire hydrants, low-hanging trees/shrubs, parked cars, utility poles, or other obstacles so our trucks can easily access your carts.

Street

Great People, Great Prices, Great Service!!
